

DELHI PUBLIC SCHOOL NEWTOWN
SESSION 2022–23
HALF YEARLY EXAMINATION

CLASS : X
SUBJECT : ECONOMIC APPLICATIONS (SET-B)

FULL MARKS : 100
TIME : 2 HOURS.

Answers to this Paper must be written on the paper provided separately.

You will not be allowed to write during the first 15 minutes.

This time is to be spent in reading the question paper.

The time given at the head of this Paper is the time allowed for writing the answers.

Attempt all questions from Section A and any four questions from Section B. The intended marks for questions or parts of questions are given in bracket [].

This paper consists of five printed pages

SECTION A

(Attempt all questions)

Question 1

[20]

Choose the correct answers to the questions from the given options.

- i. By _____ we mean the capacity of a piece of land to produce a crop.
 - a) Unproductivity of land
 - b) Productivity of land
 - c) Inefficiency of Land
 - d) None of these
- ii. Which factor of production would you consider a tractor?
 - a) Land
 - b) Labour
 - c) Capital
 - d) Entrepreneur
- iii. The goods used in the production process such as factories, machinery, equipment and coal
 - a) Land
 - b) Labour
 - c) Resources
 - d) Entrepreneur
- iv. Which of the following capital types refers to the physical stock of goods used as inputs in the production process?
 - a) Real capital
 - b) Money capital
 - c) Debt capital
 - d) Sunk capital

- v. Those goods which jointly satisfy a want are known as:
- Joint goods
 - Substitute goods
 - Complementary goods
 - None of these
- vi. The people who are willing to invest time and money to run a business
- Labour
 - Land
 - Capital
 - Entrepreneur
- vii. Those goods which are used in place of one another are known as:
- Complementary goods
 - Substitute goods
 - Joint goods
 - Any of these
- viii. Which of the following goods is an example of substitute goods?
- Tea and coffee
 - Pen and ink
 - Bread and butter
 - None of these
- ix. With a rise in income, when demand for a good increases, it is known as:
- Increase in demand
 - Extension in demand
 - Appreciation in demand
 - Inferior goods
- x. What is depicted in the following table?
- | Price (₹) | Demand (Units) |
|-------------|----------------|
| 10 | 20 |
| 8 | 25 |
- Increase in demand
 - Decrease in demand
 - Extension in demand
 - Contraction in demand
- xi. When demand curve is parallel to Y-axis, what would be its elasticity of demand?
- $E_P = 1$
 - $E_P < 1$
 - $E_P > 1$
 - $E_P = 0$
- xii. How do we write the formula of measuring E_P ?
- $(-) \frac{Q}{P} \times \frac{P}{Q}$
 - $(-) \frac{\Delta P}{\Delta Q} \times \frac{Q}{P}$
 - $(-) \frac{\Delta Q}{\Delta P} \times \frac{P}{Q}$
 - $(-) \frac{Q}{P} \times \frac{Q}{P}$

- xiii. When supply price increases, the profit of the producer _____.
a) Increases
b) Decreases
c) Remains constant
d) Decreases marginally
- xiv. The supply of a good refers to :
a) Actual production of goods
b) Total stock of goods
c) Stock available for sale
d) Amount of goods offered for sale at a particular price per unit time
- xv. Increase or Decrease in Supply means:
a) Shift in Supply curve
b) Movement along the same supply curve
c) Both (a) and (b)
d) Neither (a) nor (b)
- xvi. If supply curve is Perfectly Inelastic, the supply curve is:
a) Vertical
b) Horizontal
c) Upward sloping
d) Downward sloping
- xvii. When supply rises by 50% with an increase in price of 25%, elasticity of supply would be:
a) 0.5
b) 2
c) 3
d) 0
- xviii. When change in the quantity supplied is proportionate to the change in the price, the producer is said to have _____.
a) Perfectly elastic supply
b) Relatively elastic supply
c) Unitary elastic supply
d) Perfectly inelastic supply
- xix. Which type of market it is, which has a large number of buyers and sellers, selling homogeneous goods at a single price?
a) Imperfect market
b) Perfectly competitive market
c) Monopoly
d) Monopolistically competitive market
- xx. Which of the following market has horizontal demand curve?
a) Monopoly
b) Monopolistic competition
c) Oligopoly
d) Perfect competition

Question 2

- i. Define Land. [2]
- ii. What do you mean by division of labour? [2]
- iii. “The price elasticity of demand for commodities, having close substitutes is relatively high”. State whether the statement is true or false. Give reasons. [2]
- iv. How does the practice of shifting cultivation affect the environment adversely? [2]
- v. What do you mean by Price discrimination under Monopoly? [2]

Question 3

- i. Classify the following into fixed and working capital. Give reasons: [2]
 - a) A television set in a hotel room.
 - b) Iron-ore in a steel plant.
- ii. “The demand for inferior goods rises when the income of a consumer decreases”. Explain. [2]
- iii. Who is an entrepreneur? [2]
- iv. Why is capital called a produced means of production? [2]
- v. What do you mean by efficiency of labour? [2]

SECTION B

(Answer any four from this Section)

Question 4

- i. What do you understand by labour? Explain three ways by which division of labour is beneficial to the producers. [7]
- ii. State the Law of Demand. Explain three exceptions to this law. [8]

Question 5

- i. What is meant by migration? Explain three ways by which migration impacts the ecosystem. [7]
- ii. Explain any four reasons for the low rate of capital formation in India. [8]

Question 6

- i. What do you mean by elasticity of demand? Explain any four determinants of demand. [7]
- ii. Draw and explain any four degrees of elasticity of supply. [8]

Question 7

- i. Define land use pattern. State any three factors which determine the productivity of land. [7]
- ii.
 - a) What do you understand by supply? How does it differ from stock? [8]
 - b) What does the Law of Supply state? List two assumptions of this Law.
 - c) Explain two factors affecting supply other than price.

Question 8

- i. What do you mean by horizontal division of labour? Explain any three characteristics of labour. [7]
- ii. Discuss four ways in which an entrepreneur contributes to economic development. [8]

Question 9

Read the extract given below and answer the questions that follow:

Market structure refers to the types of market in which the producers or firms operate. It indicates how the market is organised.

Soap is a fatty acid salt used in various cleansing and lubricating products. In households, soaps are surfactants usually used for washing, bathing, and other types of housekeeping. In industries, soaps are used as thickeners, components of some lubricants, and precursors to catalysts. Soap is made by mixing fats and oils with a base. A detergent, on the other hand, combines chemical compounds in a mixer. Soap has been used by humans for millennia.

- i. a) Identify the market form of the commodity mentioned in the extract. [7]
b) Explain any four features of this market.
- ii. Discuss any four functions of an entrepreneur. [8]
