- (a) Principle of recovery (c) Principle of frequency
(b) Principle of specificity (d) Principle of overload

(vi) Identify the injury given below :

- (a) Sprain (b) Strain (c) Abrasion (d) Achilles tendonitis

(vii) Which physical education goal takes into account the development of the capacity to deal with both success and failure with composure?

- (a) Physical development
(b) Psychological development
(c) Social development
(d) Emotional development

(viii) Match the following:

I	Physical development	1	A child recognizes his parents well.
II	Psychological development	2	A child learns to roll over.
III	Social development	3	A child is afraid of the dark in night.
IV	Emotional development	4	A child learns to share a toy with a friend.

- (a) I-1, II-3, III-4, IV-2 (c) I-4, II-3, III-1, IV-2
(b) I-3, II-4, III-2, IV-1 (d) I-2, II-1, III-4, IV-3

(ix) In which areas do people typically experience pain when dealing with runner's knee?

- (a) Front of the knee (b) Thigh (c) Calf (d) Back of the knee

(x) Which activity is most effective for improving aerobic endurance?

- (a) Stretching (c) Weight lifting
(b) Swimming (d) Archery

(xi) Which sports training principle explains why people respond differently to the same training stimulus?

- (a) Principle of Individuality (c) Principle of Reversibility
(b) Principle of Adaption (d) Principle of Variance

(xii) Which aspect of human growth and development is influenced by genes and chromosomes?

- (a) Heredity (b) Environment (c) Gender (d) Nutrition

(xiii) Given below are two statements labeled Assertion (A) and Reason (R).

Assertion (A): Neglecting adolescents can lead them to adopt harmful habits, such as substance use.

Reason (R): Adolescents should be encouraged to engage in physical activities.

Options:

- (a) Both (A) and (R) are true and (R) is the correct explanation of (A)
(b) Both (A) and (R) are true but (R) is not the correct explanation of (A)
(c) (A) is true but (R) is false.
(d) (A) is false but (R) is true.

(xiv) A hundred percent perfection at hitting the target refers to the skill component_____.

- (a) Speed (b) Strength (c) Accuracy (d) Power

(xv) The time taken by the body to react immediately after a stimulus is known as _____

- (a) Speed (b) Agility (c) Stamina (d) Reaction time

(xvi) How many periods does periodisation divide a year into?

- (a) Two (b) Four (c) Three (d) Six

(xvii) A diet that provides the body with the proper amount of energy, carbs, proteins, fibre, vitamins, minerals, and water is known as:

- (a) Nutrition (b) Balance diet (c) Perfect diet (d) Food pyramid
