- (x) Mark and label Nathu La Pass.

Question 3

Choose the correct answers to the questions from the given options.

[10]

(Do not copy the question, write the correct answers only.)

- (i) _____ is of frontal origin and develops over landmasses.
(a) SW Monsoon (c) Tropical Cyclone
(b) NE Monsoon (d) Western Disturbance
- (ii) Assertion (A): Black soil is very sticky when wet.
Reason (R): Black soil is moisture-retentive.
(a) Both A and R are correct and R is the correct explanation of A.
(b) Both A and R are correct and R is not the correct explanation of A.
(c) A is correct but R is incorrect.
(d) R is correct but A is incorrect.
- (iii) Which of the following trees have a tangled root system?
(a) Teak (c) Silver fir
(b) Hintal (d) Ebony
- (iv) The Water Conservation Mission named Neeru-Meeru has been set up in:
(a) Andhra Pradesh (c) Rajasthan
(b) Tamil Nadu (d) Gujarat
- (v) Coal: Sulphur; Petroleum:
(a) Ammonia gas (c) Naphtha
(b) Benzol (d) Asphalt
- (vi) Which industry is shown in the given picture?
- 
- (a) Sugar (c) Iron and steel
(b) Cotton textile (d) Electronics
- (vii) Which of the following is a challenge faced by the Iron and Steel industries in India?
(a) Situated away from mines (c) Hot climate
(b) Less labour (d) Poor infrastructure
- (viii) Which of the following is a Rabi crop in India?
(a) Maize (c) Rice
(b) Wheat (d) Jute
- (ix) The environment friendly mode of transport is _____.
(a) Road (c) Railway
(b) Water (d) Air
- (x) Which of the following correctly matches the different colour dustbins with waste?
(a) Green-Plastic bottle; Blue-Syringe; Red-Vegetable peel
(b) Green-Vegetable peel; Blue-Old tyre; Red-Leaves
(c) Green-Old battery; Blue-Glass bottle; Red-Food waste
(d) Green-Banana peel; Blue-Paper; Red-Chemicals

PART II (50 Marks)
(Attempt any five questions from this Part.)

Question 4

- (i) “The position of hills and mountains determine the rainfall”. Explain the given statement with two examples from India. [2]
- (ii) State the atmospheric conditions associated with the following: [2]
(a) Burst of monsoon
(b) October heat
- (iii) Give reason for each of the following: [3]
(a) Monsoon winds bring rainfall, whereas sea breezes do not.
(b) Chennai is drier in summer than Kochi, though both have coastal locations.
(c) Patna is warmer than Mussoorie.
- (iv) Study the climatic data of station X and answer the questions that follow: [3]

MONTHS	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC
Temp (°C)	6.5	16.5	25.3	32.9	36.0	35.4	31.2	30	27.3	24.6	17.5	8
RF (cm)	0.4	0.7	0.9	1.3	2.5	17	23.4	20.5	20.6	4.5	1.6	0.8

- (a) Calculate the average temperature of station X for the winter season only.
(b) What is the annual rainfall received in the given station?
(c) Station X has a coastal or continental location? Give reason for your answer.

Question 5

- (i) Farmers in Gujarat, Tamil Nadu and Maharashtra are blessed with soil which provides the crops with a steady supply of water even in drought conditions. [2]
(a) Identify and name the soil mentioned here.
(b) What property of this soil helps in lowering the labor involved in preparing fields?
- (ii) With reference to gully erosion in India, answer the following questions. [2]
(a) What causes this erosion?
(b) In which area is this most prominent?
- (iii) With reference to alluvial soils in India, answer the following questions. [3]
(a) How is it formed?
(b) Name two types on the basis of age and location.
(c) State two cereal crops cultivated in this soil.
- (iv) Give a reason for the following statements. [3]
(a) Red soil is known as in-situ soil.
