(a) Anatomy cruciate ligament (c) Anatomy collateral ligament
(b) Anterior cramp ligament (d) Anterior cruciate ligament
- (iv) The passing of traits from parents to their off-spring is known as _____.
(a) Puberty (c) Childhood
(b) Infancy (d) Heredity
- (v) The ability to stay upright in control of body movement:
(a) Balance (c) Power
(b) Strength (d) Agility

- (vi) Which body types can be characterized by a round body?
- (a) Endomorph (c) Mesomorph
(b) Ectomorph (d) Graphomorph
- (vii) Given below are the two statements labeled as Assertion (A) and Reason (R).
Assertion (A): Heredity is the transmission of physical characteristic from parents to children through their genes.
Reason (R): The heredity influences all aspects of physical appearance such as height, weight, body structure, color of the eye, the texture of the hair and even intelligence and aptitudes.
In the context of above two statements, which of the following is correct?
- (a) Both (A) and (R) are true, and (R) is the correct explanation of (A).
(b) Both (A) and (R) are true, but (R) is not the correct explanation of (A).
(c) (A) is true, but (R) is false.
(d) (A) is false, but (R) is true.
- (viii) Match the following:
- | | |
|------------------------------|----------------------------|
| (I) Cardiovascular endurance | 1) Sit and reach test |
| (II) Muscular endurance | 2) The ball toss test |
| (III) Flexibility | 3) Push-up test |
| (IV) Co-ordination | 4) The cooper run test |
| (a) I-1, II-3, III-4, IV-2 | (c) I-4, II-3, III-1, IV-2 |
| (b) I-3, II-4, III-2, IV-1 | (d) I-2, II-3, III-4, IV-1 |
- (ix) What is the minimum qualification to become a coach in India?
- (a) B.P.Ed (c) PhD
(b) M.P.Ed (d) N.I.S
- (x) Short and long periods of rest between exercise sessions are necessary.
This is the principle of _____ .
- (a) Adaptation (c) Recovery
(b) Specificity (d) Variance
- (xi) Overstretching of ligament causes:
- (a) Fracture (c) Concussion
(b) Sprain (d) Shin splint
- (xii) A diet containing right amount of energy, carbohydrates, proteins, fats, fibers, vitamins, minerals and water to fulfill requirement of the body is called:
- (a) Nutrition (c) Perfect diet
(b) Balance diet (d) Food pyramid

- (xiii) The year-long cycle of periodization is known as _____.
 (a) Meso cycle (c) Micro cycle
 (b) Macro cycle (d) Nano cycle
- (xiv) A hundred percent perfection at hitting the target refers to the skill component _____.
 (a) Speed (c) Accuracy
 (b) Strength (d) Power
- (xv) _____ is the time taken by the body to respond immediately after stimulus.
 (a) Speed (c) Stamina
 (b) Agility (d) Reaction time
- (xvi) Which type of strength is essential for shot put?
 (a) Maximum strength (c) Strength endurance
 (b) Explosive strength (d) Dynamic strength
- (xvii) The process of preparation of sportsman based on scientific and technical principles, for higher performance is called:
 (a) Sports times (c) Physical education
 (b) Sports training (d) Physical fitness
- (xviii) The training by an athlete should be followed without any break. Which principle does it refers to?
 (a) Principle of continuity (c) Principle of overload
 (b) Principle of adaptation (d) Principle of progression
- (xix) What are the most common symptoms of concussion?
 (a) Loss of consciousness, loss of balance
 (b) Pain and stiffness along the achilles tendon in the morning
 (c) Pain on the side of the hip or thigh or in the buttock
 (d) Morning stiffness of the elbow with persistent aching
- (xx) Where do you feel pain in the runner's knee?
 (a) Front of the knee (c) Calf
 (b) Thigh (d) Back of the knee

Question 2

- a) Define the term “physical education”. [2]
 b) State any two differences between growth and development. [2]
 c) Sunil, a 15 years old student, is an active participant in various sports activities [3]
 at school. He excels in activities that require endurance and agility, such as
 long distance running and soccer. Sunil body structure is lean with long limbs.
